EHR IN PRACTICE

ECLINICALWORKS EHR EXTENDED PROFILE

eClinicalWorks
"Improving Healthcare Together"

OVERVIEW

eClinicalWorks EHR is a cloud-based, ONC-certified system designed to enhance provider workflows across desktop, mobile, and tablet for practices and enterprises of all sizes and specialties, supporting over 40 medical specialties and sub-specialties.

The healow Genie AI contact center integration gives patients 24/7 access to care, while the healow Hub collects patient data from wearables and remote monitoring tools. This information integrates directly into the system, giving providers valuable health insights between appointments.

Further AI functionalities include:

SUNOH.AI: AI-POWERED MEDICAL SCRIBE

Sunoh.ai is an AI-driven ambient speech technology that transcribes natural language conversations between healthcare providers and patients into clinical documentation.

AI ASSISTANT: CONVERSATIONAL EHR INTERFACE

eClinicalWorks' implementation of generative AI lets users interact with the system in natural language, simplifying tasks such as scheduling, documentation, health record searches, and administrative functions.

IMAGE AI: FAX INBOX MANAGEMENT

Image AI automates the management of inbound faxes by matching them to patient records and interpreting their content, subject to provider confirmation.

AI FOR ROBOTIC PROCESS AUTOMATION (RPA):

Automated Playlists navigate multiple screens to perform repetitive tasks. This feature enhances efficiency and simplifies staff onboarding by reducing manual processes.

HEALOW NO-SHOW AI PREDICTION MODEL

The healow no-show prediction model forecasts patient no-shows with up to 90% accuracy. By identifying patients likely to miss appointments, practices can proactively manage schedules, improving patient attendance rates and recovering potential revenue.

FEATURE OVERVIEW

- ✔ Patient Demographics
- ✔ Patient Portal
- ✔ Scheduling
- ✔ Appointment Management
- ✔ Billing Management
- ✔ Medical Templates
- ✔ Document Management
- ✔ Clinical Workflow
- ✔ EM Coding
- ✔ Referrals
- ✔ Insurance and Claims
- ✔ Lab Integration
- ✔ Patient History
- ✔ Reporting and Analytics
- ✔ Voice Recognition
- ✔ Patient History / EMR
- ✔ e-Prescription
- ✔ E&M Coding
- ✔ Insurance & Claims
- ✔ Reporting / Analytics
