

IPATIENTCARE EHR

EXTENDED PROFILE

OVERVIEW

iPatientCare supplies an EHR software suite that supports practices from single-physician up to hospitals that employ more than 200 physicians. The software can also support practices with multiple locations and with a variety of specialties. iPatientCare EHR is available as an on-site or web-based installation.

The system checks patient eligibility, provides specified laboratory results, and can send patients appointment reminders by SMS. Providers can access the software on mobile and tablet devices, making notes, using dictation support, and taking and annotating photos.

iPatientCare EHR now supports a Google Glass app - "miGlass" - which records a patient's visit to the practice and allows them to take home a video so that they can duplicate necessary care procedures including dressing changes, medication schedules, or follow other instructions provided by their health care team.

iPatientCare has no license fee and a pay-per-use pricing model which includes upgrades, maintenance, and support.

FEATURE OVERVIEW

- ✓ Patient Demographics
- ✓ Patient Portal
- ✓ Appointment Management
- ✓ Billing Management
- ✓ Medical Templates
- ✓ Clinical Workflow
- ✓ Referrals
- ✓ Insurance and Claims
- ✓ Patient History
- ✓ Reporting and Analytics
- ✓ Patient History / EMR
- ✓ e-Prescription
- ✓ Insurance & Claims
- ✓ Reporting / Analytics

SOFTWARE SCREENSHOTS

The screenshot displays the iPatientCare software interface within a Windows Internet Explorer browser window. The top navigation bar includes menus for File, Reports, Correspondence, Tools, Billing, and Help. The user is identified as James Smith, MD, located at the CFU, Baltimore Office.

The main interface is divided into several sections:

- Digital Dashboard - Windows Internet Explorer:** This section contains filters for Date (9/8/2011), Location (Baltimore Office), Provider (<ALL>), and Reason (<ALL>). Below these filters is a table listing patient visits.
- Navigation Menu:** A central column lists various note types, with "Phone note" currently selected and highlighted in yellow. Other options include Visit Note, Procedure note, Post-op Visit Note, Well Child Exam, Well Woman Visit, Lab Report, Diagnostic test Report, Diagnostic Test Note, Rx Refill Request, Psych Evaluation Note, Patient Annotation, Maternity visit note, Virtual Visit, Export PE, Facemaker Followup, Correspondence In, Dan Note, Adult Personal History (Age 18 and older), Child/Adolescent Personal History (Ages 17 & Under), Group Progress Note, Discharge Summary, Psychiatry Evaluation, Medication Review, Psychiatric/Psychological Services Report, Treatment Plan Review Form, Psychotherapy Note, Intake Assessment Form, Adolescent Self-Report History (Ages 13-17), Psychiatric/Psychological Services Referral Form, and Import.
- Chart View:** The right side of the interface shows a list of patient notes. The selected "Phone note" for "James, Maria" is highlighted in yellow. The note details include the subject "LIPID PROFILE", provider "James Smith", and priority "Normal".
