

PRIMESUITE EHR

EXTENDED PROFILE

OVERVIEW

PrimeSuite is an integrated health IT system for small, medium and large practices. The system is a combination of EHR and practice management features which can be customized to meet the needs of certain specialties and practice requirements.

Offering a single sign-on for access to both EHR and PM functionalities, Prime Suite is a flexible system that also includes a specialty-specific template library.

The Prime Suite dashboard allows both administrators and practitioners access to key patient data, clinical quality measures, PQRS as well as clinical alerts.

A cloud-based health It system, Prime Suite offers access via both desktop and mobile. A patient portal allows people undergoing treatment access to the system from outside the surgery.

FEATURE OVERVIEW

- ✓ Patient Demographics
- ✓ Patient Portal
- ✓ Scheduling
- ✓ Appointment Management
- ✓ Billing Management
- ✓ Medical Templates
- ✓ Document Management
- ✓ Clinical Workflow
- ✓ Lab Integration
- ✓ Patient History
- ✓ Voice Recognition
- ✓ Patient History / EMR
- ✓ e-Prescription
