

IMS CLINICAL EHR

EXTENDED PROFILE

OVERVIEW

From Meditab, the IMS Clinical suite provides certified EHR, practice management software, and care portal for patients and providers, plus full practice analytics component.

IMS Clinical can be tailored to the needs of almost any specialty, this is achieved by the large portfolio of templates sets available to users of the system.

There are currently over 380,000 member practices and specialists using IMS Clinical, meaning it is one of the largest collaborative digital networks for integrated healthcare communications.

Meditab offers live and online support systems, as well as on-site training to their clients.

FEATURE OVERVIEW

- ✓ Patient Demographics
- ✓ Patient Portal
- ✓ Scheduling
- ✓ Appointment Management
- ✓ Medical Templates
- ✓ Document Management
- ✓ EM Coding
- ✓ Referrals
- ✓ Lab Integration
- ✓ Patient History
- ✓ Reporting and Analytics
- ✓ Voice Recognition
- ✓ Patient History / EMR
- ✓ e-Prescription
- ✓ E&M Coding
- ✓ Reporting / Analytics

SOFTWARE SCREENSHOTS

The screenshot displays the 'Setup Center' application window. On the left is a navigation pane with categories like 'All Screens', 'Visit Note', 'RR', 'FGHC/HC', 'Prescription', 'Scheduler', 'Office', 'Paper/Medical Services/Reference', 'Immunotherapy', 'Dental', 'Diabetes', 'Point of Sale', 'Marketing', 'Fertility', 'Admin', 'MPS', and 'Other'. The 'Prescription' category is expanded, showing options such as 'Drug Category...', 'Drug Schedule...', 'Drug', 'NDC Qualifier Mapping...', 'SIG', 'SIG Words...', 'Pharmacy', 'Most Used Pharmacy...', 'HIC Provider', 'Most Used Provider...', 'Template', 'Default Value', 'EPCS Credentials...', 'Formulary', 'Print Layout...', 'Dispense Label Layout...', and 'Barcode Format...'. The 'Print Layout...' option is selected.

The main area shows a 'Prescription Print Layout' dialog box. At the top, it says 'Select: (Dispense) All - All - Controlled Type 1'. Below this is a toolbar with various icons and a '100%' zoom level. The central area is a preview of the prescription layout. A smaller 'Prescription Layout' dialog box is overlaid on the preview, containing the following fields and options:

- For:** A dropdown menu currently set to 'Dispense'.
- Office:** A dropdown menu currently set to 'All'.
- Provider:** A dropdown menu currently set to 'All'.
- Controlled/Non-Controlled:**
 - All
 - Non controlled
- Controlled:** A row of five checkboxes labeled 1, 2, 3, 4, and 5. Checkboxes 1 and 2 are checked.
- Duplicate Rx Note:** A text input field containing the text 'Copy not for dispensing'.
- Buttons:** 'OK' and 'Cancel' buttons.

On the right side of the 'Prescription Print Layout' dialog, there is a 'Database Field List' panel. It includes a search box and a list of fields: 'illeg', 'drug schedule', 'insurance end date', 'insurance group no', 'insurance id', 'insurance name', 'insurance start date', 'i pin', 'last action', 'last appointment id', 'ipout id', 'office address', 'office city', 'office city state zip', 'office fax', 'office name', 'office phone', 'office state', 'office zip', and 'patient city state zip'. Below the field list are navigation arrows and a 'Double click to select field' instruction.

At the bottom of the 'Setup Center' window, there is a status bar with the text 'Ready' on the left, 'system' in the center, and 'Ver 14.00 ServicePack 1 Du6 041517 v4-036 (P) - 000136 06/21/2017' on the right. A 'Minimize screen' button is also visible in the bottom right corner.
