## OVERVIEW

From McKesson, InteGreat EHR is a health IT system designed to offer optimal efficiency for practice staff.

Suitable for growing practices, InteGreat EHR offers a complete record system and clinical workflow tools. The system is equipped with Quippe technology, this allows system users to have faster access to decision support and patient management tools.

InteGreat EHR is a cloud-based system that can be accessed via any browser. The system allows users to document care by using gestures, handwriting and a variety of annotation tools.
