

MEDGEN EHR

EXTENDED PROFILE

OVERVIEW

Medgen EHR is a very unique and easy to use EHR software. Its full set of features and intuitive user interface make it a very powerful tool in medical practices of all size and specialties. The system is constructed in such a way that allows a user to access a desired patient chart without being bogged down with over-crowded screens or having too many clicks to access the information needed. Medgen EHR can fit any specialty type and the system is highly customizable so it can be tailored to a specific practice or specialty and fit their current workflow. This certified web-based system requires no maintenance from the physician's side. Through the Patient Web Portal, patients can view their own charts and lab results. Its built-in billing module, makes it easy for physician practices to correctly bill and receive various types of payments and its automatic appointment reminders via phone, text, and email make keeping in touch with patients simple.
