

POWER2PRACTICE EMR

EXTENDED PROFILE

OVERVIEW

Power2Practice is a comprehensive electronic medical records (EMR) and practice management platform for functional, integrative, and anti-aging medicine practices. Endorsed by the American Academy of Anti-Aging Medicine (A4M), it combines EMR capabilities with specialized tools to streamline operations, enhance patient engagement, and optimize revenue generation. With features tailored to integrative medicine, Power2Practice is ideal for solo practitioners or multi-provider practices focused on personalized, holistic care.

SPECIALITY FOCUS

Power2Practice caters to the unique demands of functional, integrative, and anti-aging medicine. It offers:

- Integration with top specialty labs like Genova Diagnostics and ZRT.
- Nutraceutical management through Fullscript for supplement prescriptions.

FREQUENTLY ASKED QUESTIONS

WHAT IS POWER2PATIENT?

Power2Patient is the portal component of Power2Practice, offering patients secure access to their medical information, lab results, treatment plans, and online scheduling. It enhances communication and streamlines engagement between providers and patients.

WHAT IS A FUNCTIONAL EMR?

A functional EMR is tailored for practices focused on holistic, integrative care. It emphasizes tools that facilitate personalized treatment plans, integration with specialty labs, and support for alternative therapies not typically covered by traditional EMRs.

SOFTWARE SCREENSHOTS

The screenshot displays the patient record for 'test, test' (DOB: 18-Aug-2000, 17 years old, Male). The interface includes a navigation menu with options like Summary, Notes, Exam, Dx, Medical Hx, Lab Results, and Outcome Measures. A 'Medications' section is active, showing an 'e-Prescribe Medications' form. The form includes fields for Prescriber (Mayfield, William J), DEA (AA2143650), and Effective Date (08/15/2018). The drug being prescribed is 'Advil 100 mg chewable tablet'. A 'PDR' (Physician Drug Reference) tool is visible on the right side of the form. The left sidebar shows 'Current Diagnosis' (Elevated blood glucose level, Abnormal findings in specimen...) and 'Current Medications' (Advil 200 mg, Crestor 5 mg tablet, Advil 100 mg chewable tablet).
